

# ANCIENT BUILDINGS. GOBEKLI TEPE

Gobekli Tepe is one of the oldest structures in the world. Its age is about 12,000 years old! It was once thought that the most ancient and advanced civilization – Egyptian lived there, however the temple complex in Turkey makes us look at history in a different way. It is known 12 thousand years ago, people who did not know the wheel, could build such amazing buildings. Gobekli Tepe is one of the most important archaeological finds in the world. There are a lot of amazing columns On Gobekli Tepe , they have various reliefs and carving.

# ANCIENT BUILDINGS. TAURIC CHERSONESOS

Tauric Chersonesos – is a destroyed monument based on the ancient Greeks Heracleian peninsula on the southwest coast of the Crimea.

Tauric Chersonesos is in ruins now. These ruins are located in the city of Sevastopol. They are more than 2,500 years old.

These ruins are very well preserved. Here you can see beautiful columns against the blue sky, the raging sea waves, a 250-year-old bell lighthouse and partially preserved ancient amphitheatre.
