

REMEMBER OUR HOLIDAY

Seven years ago my Mum and I travelled to Turkey.

We went by my modern new car to the airport.

Then we got on a comfortable big plane and flew to Turkey.

We arrived there after 6 hours.

Turkey is a beautiful hot country.

We stayed at a hotel in a wonderful light room.

The next day my mother and I went to the brilliant famous Turkish bath.

While I waiting for my mother a fantastic national holiday started and I wanted to see her.

I went back to see if my mother finished, but she was gone!

I ran looking for her.

Then a beautiful young woman ran up to me and said that my mother was looking for me either.

Finally, I saw my mother.

We both were happy!

FISHING FOR CRABS

Last summer we went to Turkey. We boarded the plane and arrived in Dalaman. Dalaman is a beautiful green city on the Aegean Sea.

The first night we slept in a great big bungalow. In the morning we went to catch crabs. We arrived at the place of fishing, but we got a problem - the bait was forgotten bungalow! We had to go back for it.

Then each of us caught a lot of beautiful blue crabs. It was the most incredible event in my life

After our successful sea fishing, we returned to the hotel.

Last summer my family and I went to the Black Sea.
We travelled by beautiful and big car.
The trip was very awful and long, practically 4 days.
Soon we arrived at the place.
It was cloudy.
That first night we were sleeping in the car.
It was awful!
Next day we stayed at a wonderful, old hotel.
It was unusual to sleep in a new place.
In two days the weather became very hot.
The temperature rose up to 40 degrees!
It became higher and higher.
The days in the hotel apartment were boring.
Four days later the temperature fell down at last.
Our life changed greatly, but we remembered these hottest days
for the whole of our lives.
