I included it Mike Shinoda (he was the founder of Hero), and he was thrilled. I immediately flew to California the next day and was sitting on the doorstep of the building where they held an audition. They listened to many people and when it was my turn, I thought that they immediately take me, but no, they made me wait with everyone else. And then one guy who had come to the audition said that if you do not take it, then you are very much mistaken. Well, I waited, and they chose me. This is how!

OZERSK 2015

Your parents are also athletes tell you from birth such an iron will and strong character? Or are you constantly work on yourself?

Thanks to my parents I received an excellent education, but each person has to constantly work on yourself to develop the best quality. And my character, too, the steel needs constant tempering. I never cease to work on yourself and learn, because I want to improve as a person and as a hockey player.

What are the main components of success in achieving this goal?

Nothing gets you nothing. To achieve their goals and become the best, I have to constantly work with the guys from the team, coach. Alone, it is impossible to reach the tops, so teamwork is so important.

Hockey - a game where there may be both victories and losses. As you experience defeat? It makes you stronger?

The victory - the best way to survive the defeat. When you lose, you need to think about what should change, and then move on. Tomorrow - a new day and a new chance to earn the win and just be happy.

THANKS FOR YOU ATTENTION!
