Olesya aged 13 Russia is my native country. It is very big and the weather is different in different parts of it. I live in the Urals, in the town of Ozersk. There are 4 seasons in my town. Winter is the coldest one. Sometimes the temperature is very extreme. Usually we get a lot of snow in winter. Summer is the hottest season of the year. The temperature can rise to over 30°C above zero. Sometimes it rains, but not often. I think that summer is the best season of the year.

My town is located in continental central Russia.

In summer, temperature can rise from 15 to 38 degrees Celsius.

In addition, the winter temperature can rise from zero to forty degrees.

As our town is in the Ural Mountains, people love winter sports.

Therefore, many champions living in our town, took part in the Olympic Games.

In the spring, temperature is colder than in the summer (from zero to twenty degrees)

At fall you feel cold snaps.

Our city is wonderful in every season!
